

*Science and Technology
of Materials, Interfaces, and Processing*

2015 and onward

STRATEGIC PLAN

AVS Mission

The American Vacuum Society is an international community of scientists, engineers and instrument manufacturers, which strives to promote research and communicate knowledge in the important areas of surface, interface, vacuum, and thin film science/technology for the advancement of humankind.

AVS Vision

The American Vacuum Society endeavors to be the premier organization specializing in understanding and applying the science and technology of materials, interfaces and processing with outstanding benefits for members.

GOAL 1
Advancing
Knowledge and
Communication

GOAL 2
Outstanding
Benefits to
Members

GOAL 3
An International
Society

GOAL 4
Support Industry,
Innovation, &
Competitiveness
