

INSTRUCTIONS FOR PREPARING JVST MANUSCRIPTS

(<http://www.avs.org/literature.information.aspx> for more)

Papers will be reviewed according to criteria set by the JVST and must meet JVST standards for both technical content and written English. Proceedings papers will only be accepted on the understanding that the authors honor the normal page charges of the JVST.

INSTRUCTIONS FOR PREPARING JVST MANUSCRIPTS

All manuscripts are refereed to the same standards as regular JVST submissions.

1. Papers can contain up to a nominal total of 20-25 pages of double-spaced text, tables, figures, references, abstract, etc. If the submitted paper is longer than 25 pages, then the final decision on acceptance for publication will be made by the JVST editors, and will be based on the recommendations of the reviewers.
2. Each figure and table should be on a **separate page**.
3. Table and figure captions should be listed on a page, **NOT** under the table or figure, only the number need appear with the figure/table.
4. Multi-component figures may take up more than one page if each component cannot be reduced to 1/6 of a JVST page.
5. The text should be **DOUBLE-SPACED** (the font recommended by the Editor-in-Chief is Times New Roman 12) and pages should have one inch margins on all sides.

Authors may include their internet e-mail addresses along with all other footnotes in the following format: **Electronic mail:** smith@foo.bar.com

*****WE WILL NEED AT LEAST 3 MATERIAL TERMS, IF APPLICABLE, FOR YOUR MANUSCRIPT. THIS IS NEEDED FOR THE JVST MATERIALS INDEX. THESE ARE TERMS INDICATING WHAT MATERIALS ARE DISCUSSED IN THE ARTICLE (MATERIAL REFERS TO CHEMICAL SUBSTANCE.)**

NOTE: Your FIGURES CAN APPEAR ONLINE IN COLOR FOR FREE. To take advantage of this you will need to send AIP (the compositor, directly) the electronic file/s of your figures within 24 hours of receiving your Acceptance email from JVST. Again, you do not need to send anything until you receive notice the paper is accepted and has a 9 digit AIP number. Sending color figures in the pdf file used for the review process does not allow for color reproduction (either online or print) at the publishing stage. Only sending AIP the files directly will facilitate this. A "Publisher's Announcements" email with more details will be sent to you.

Manuscript deadline: April 29, 2009

PLEASE TURN IN A COPY OF THE MANUSCRIPT AT THE CONFERENCE AND E-MAIL IT TO della@avs.org
