Exhibitor Technology Spotlight

Room: West Exhibit Hall - Session EW-WeM

Exhibitor Technology Spotlight

Moderator: D. Surman, Kratos Analytical Inc.

10:20am EW-WeM8 Using the Apple IPAD with your PVD System
Maintenance, C. Malocsay, Semicore

Rarely does one item change several industries at once like the Apple IPAD or other tablet computers. Semicore has followed other major companies that have taken this device and applied it to increase productivity and reduce costs. Not a replacement for your PC but considered as an extension of your computer just like a wireless mouse. Applications available at little or no cost can increase the users effectiveness in Thin film vacuum deposition systems and their day to day operation.
